I have a strong technical background in an environment where everyone is always **hungry to learn and never afraid to ask questions**. This has propelled me to be the team player I am today that is always ready to learn, be a mentor, and have great communication with my team to ensure everyone around me thrives. I am looking for an organization that never gets comfortable and is always looking to strive for greatness.

SKILLS

Coding Languages

HTML5

CSS

JavaScript

Python

Frameworks / Libraries

Express.js

React

Django

jQuery

Technologies

Git, GitHub

Node.js

MongoDB, PostgreSQL

Netlify, Heroku

PROJECTS

Giphy Portal (HTML, CSS, JQuery, GIPHY API, JavaScript, Heroku)

Created an app with a timeframe of 5 days as my first project that utilizes the Giphy Api to fetch data.

ExoPlanet Logger (HTML, CSS, Node, Express, Mongoose, MongoDB, Heroku)

Full-stack CRUD app that utilizes MongoDB as a database to create new logs for a discovered planet.

Rule of Thumb (React, HTML, CSS, JavaScript, Node, Express, MongoDB, Mongoose, Netlify)

A Full-stack decoupled message-board app that's purpose is for people to share advice on various topics.

Chef for Hire (Python, HTML, CSS, Django, PostgreSQL, Heroku, AWS S3)

Maintained git workflow by using branches for new features. Reviewed 5-7 pull requests per week to ensure code quality and consistency as part of a 3-person team. Full-stack CRUD app made to allow people to hire private chefs.

EXPERIENCE

General Assembly

Software Engineering Fellow

Remote (Online)

09/21-12/21

- **Immersive Coding Environment:** Over 420 hours of industry-validated curriculum, hours of guided coding practice, and real-world projects.
- **Team-Collaboration:** Collaborated with multiple developers daily on various projects, assisted in debugging code, and problem solving.
- **Problem Solving:** Solved coding problems daily and fulfilled design requirements of assignments.

Apple

Product Specialist

Alpharetta, GA

08/17-07/19

- **Collaboration:** Collaborated with diverse colleagues of all levels to come up with custom solutions.
- **Troubleshoot:** Troubleshoot a multitude of hardware/software bugs and defects.
- **Adaptability:** Learn Apple's constantly evolving technology and share with customers same-day.
- **Soft-Skill Development:** Communicated consistently throughout the day with colleagues, utilized teamwork daily, received and gave feedback daily, interactions occurred with an open mind.

EDUCATION

General Assembly, Remote Coding Bootcamp (Online)

Certificate of Completion (completed 12/21)
